

Feel the Fear (and do it Anyway)

Don't want to be a soldier, just wanna be the kind of man
Finds a cause he believes in, and does everything he can
Sees something wrong, tries to make it right
He doesn't cause trouble, but – still ready to fight

Don't wanna be a prisoner, always got bills to pay
Doin what they tell me, I always wanna have my say
If I feel like doin nothing, then that must be my right
But always goin somewhere, reaching for the light

Don't need to be Buddah, to find a heavenly peace
Just never be greedy, and you'll never be obese
So how do you eat an elephant?, start with a little bite
Then keep on munchin, til his tail arrives in sight

Don't wanna be old, but I like to live my life
Leanring something every day, makin love to my wife
Feel the fear do it anyway, sphincter holdin tight
Your dreams will be realised, the future will be bright
