

Keep on Chillin

Sittin on the beach smokin a joint
Could go look for a job but what's the point
Cause there ain't no posts that need fillin
Better sittin on a beach just a-keepin on chillin

Passin the time on the settee
Soaking up endless rubbish on the TV
It's all sent free so there's no billin
And there's so much time that needs a-killin

But if you want to make more of your life
Than a mortgage two kids a big dog and a wife
Who doesn't love you like you did cause your not the man
Who said whatever I want to be I can

Eatin a pizza Sat'day night
Takin another beer it feels just right
Red meat, white sugar, GM it's so easy
To eat and drink til feelin queasy

Get a bit fat what's wrong with that?
Cover my hamster cheeks with a ten-gallon hat
Feelin so bad just take a pill
Its so much easier than findin the will

Don't have to talk about a revolution
But there no time to wait for evolution
So maybe take a step with a weekly resolution
Cause everyone can start to change their world
